Career Objective

Enthusiastic Computer Science student with hands-on experience in Full-Stack Web Development. Aiming to leverage technical skills and analytical thinking to build innovative applications while gaining real-world exposure in a growth-oriented environment.

Education

Vellore Institute of Technology, Chennai | Tamil Nadu

Bachelor of Technology in Computer Science & Engineering | Expected 2028

CGP: 8.35

Technical skills

- Languages: Python, JavaScript (ES6+), SQL (MySQL), HTML5, CSS3.
- Web Development: React.js, Flask, RESTful APIs, Flask-SocketIO, Tailwind CSS.
- Machine Learning: Classical ML Algorithms, CNN Embedding-based Clustering
- Tools & Databases: Git/GitHub, MySQL, Google OAuth

Projects

OddJobs – Freelance Marketplace Platform | Flask, React, MongoDB, Google OAuth, Cashfree API(sandbox)

- Developed a full-stack freelance platform featuring a robust escrow payment system using Cashfree Sandbox.
- Implemented secure user authentication via Google OAuth and managed state with server-side sessions.
- Designed a dynamic task-posting and application workflow, allowing users to hire and release payments

Real-Time Chat Application | React, Flask, Flask-SocketIO, MySQL

- Built a bi-directional communication app allowing users to create accounts and exchange instant messages.
- Integrated WebSockets for low-latency, real-time data transfer.
- Designed a relational database schema in MySQL to manage user profiles and message history.

Strengths

- Structured approach to project development and workflow planning
- Strong problem-solving mindset

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief.
